

Enhance your fibre optic
splicing experience.

SumiCloud™

SumiCloud is a powerful tool that supports your fusion splicer in the field.

Using your smartphone, your splicer connects to the internet and Sumitomo's cloud services which include data management, asset management, firmware updates and maintenance support.

Enjoy a new generation splicer experience with SumiCloud

view and control
your splicer

SumiCloud Function

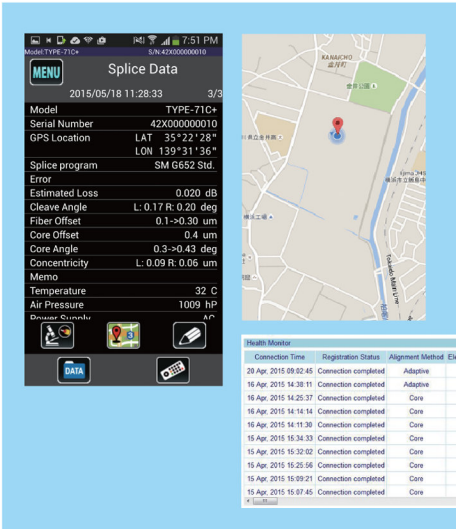

Smooth and secure support for field operators using SumiCloud smartphone app and for managers using SumiCloud web app.

SumiCloud delivers benefits to all T-71C+ users: telecom carriers, installation contractors, rental companies and maintenance offices.

Splice Data Management

Real time data sharing on your smartphone and web browser

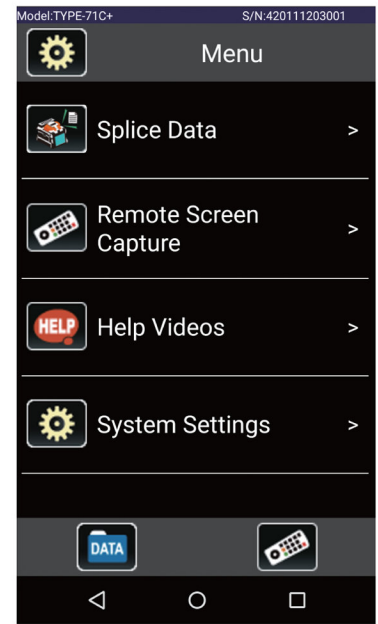

Remote Screen Capture

Capturing real-time splicer display for better support

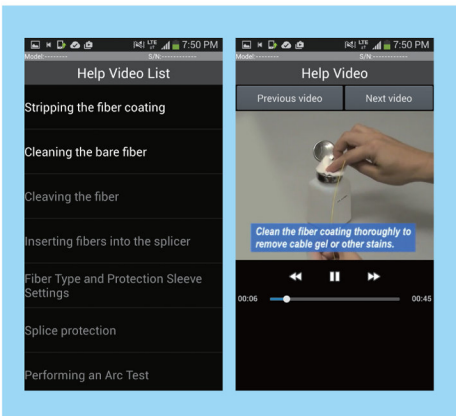

The other useful functions will be released soon.

Help Videos

Wide range of help videos to support user training and proactive maintenance

Report Builder

Finish up your field report by several taps on your smartphone.

Auto Diagnosis

Remote health check to minimize troubles in the field.

Software update

Keep your splicer firmware up-to-date with the latest version to ensure optimum performance.

Remote Lock

Lock and unlock your splicer for safety and security.

Applied Splicer
TYPE-71C+

Note 1) The smartphone App is only for Android. Android is trade mark of Google Inc.

Note 2) SumiCloud SD card is required to add SumiCloud function on Type-71C+.
