

# ODC Sealing Kits

## Heat-Shrinkable Types

Optotec sealing kits consist of heat shrinkable tubing made from high performance cross linked polyolefin coated internally with hot melt adhesive to give high mechanical and environmental protection.

When heated with a standard gas torch, or similar heat source, the tubing shrinks to follow the shape of the outlets and cables to be protected.

The hot melt adhesives or sealant flows to fill any cavities or surfaces to guarantee IP68 level of protection.

Inside every kit are all the components to prepare and terminate all type of cables with different constructions (see kit descriptions or contact our sales office for more information).

OPTOTEC PN	REFERENCE PN	DESCRIPTION
2500951	FOCUS-ODCKIT-OVAL PORT SEAL LT	Heat-shrinkable sealing oval port kit for loose tubes cables
2500952	FOCUS-ODCKIT-ROUND PORT A SEAL LT	Heat-shrinkable sealing port A kit for loose tubes cables
2500953	FOCUS-ODCKIT-ROUND PORT B SEAL LT	Heat-shrinkable sealing two port B kit for loose tubes cables
2500960	FOCUS-ODCKIT-CAVO DROP+PRED. 2°	Heat-shrinkable sealing port A kit and second cable prearrang.
2500954	FOCUS-ODCKIT-2° CAVO DROP	Heat-shrinkable sealing second cable kit
